protection.***

### THE TRUTH....

Americans today **suffer from a false sense of security** that their medical coverage will pay for all costs associated with emergency or critical care transport. The reality is that a majority of Americans are **only partially covered** for these high costs.

Most healthcare policies will only pay based off of the "Usual and Customary Charges" while Medicare pays based off a set fee schedule, both **leaving you with the remainder of the bill.**

You face the possibility that your medical coverage will deny the claim **leaving you responsible for the ENTIRE bill.**

Typically health insurance policies will not get you back home when traveling, leaving you exposed to transportation **costs that can exceed \$100,000.**

***We provide medical emergency transportation solutions AND cover your out of pocket medical transport cost when your insurance falls short.***

*"All I had to do was send the bill which was never paid by Medicare and TriCare for Life --- and the rest is history. When MASA received that bill, it was paid and all amounts owed satisfied." --- MASA Member, 2015*

### MASA MTS for L3 Members Ensures...

- NO health questions
